Allowable Subject Matter

Claims 1-7 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art neither shows nor suggests a display device to be installed in an instrument panel of a vehicle having all of the limitations of claim 1, and most particularly, an image generator including previously distorted image data according to the predetermined curved surface of a screen, an image control section outputting an image signal depending on the image data, and a projection optical system wherein the "image projector allows an aberration shape of an optical system on a projected image to substantially coincide with the shape of the predetermined curved surface of said screen".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
